

GAURANG TRIPATHI

Assistant Manager | SPFx Developer | SharePoint & Power Platform Specialist | AI-Driven Solutions

📞 9621305597 | 6306867708 @ gaurangtripathi97748@gmail.com 📍 Kanpur, India

SUMMARY

Results-driven Assistant Manager and SPFx Developer with **5+ years of experience delivering scalable enterprise solutions using SharePoint Online and Microsoft 365 ecosystems**. Strong expertise in building **modern, responsive applications using SPFx, React, and TypeScript**, along with **workflow automation using Power Platform**. Experienced in leading teams and driving digital transformation initiatives. Currently exploring AI capabilities including Copilot and agentic AI using Autogen framework to enhance intelligent automation and business productivity.

EXPERIENCE

Assistant Manager – SPFx Developer EY GDS (Ernst & Young Global Delivery Services)

📅 10/2021 – Present

- Design and develop custom SPFx solutions using React and TypeScript for SharePoint Online, enhancing usability and performance.
- Work extensively on SharePoint Online components including modern sites, lists, document libraries, and permission models.
- Build and integrate Power Platform solutions to automate business workflows and improve operational efficiency.
- Collaborate with stakeholders to gather requirements and deliver scalable Microsoft 365-based solutions.
- Lead and mentor team members, ensuring high-quality delivery and adherence to project timelines.
- Optimize applications for performance, scalability, and seamless integration within enterprise environments.
- Actively exploring AI-based solutions using Copilot and Autogen framework for future-ready automation use cases.

CERTIFICATIONS

Microsoft Certified: PL-900 – Power Platform Fundamentals

Microsoft Certified: AI-900 – Azure AI Fundamentals

EDUCATION

Bachelor of Technology (B.Tech) PSIT (Pranveer Singh Institute of Technology)

📅 2020

KEY ACHIEVEMENTS

- 📄 Received three business awards within 18 months for consistent high performance and delivery excellence
- ✅ Successfully handled and mentored team members, improving delivery efficiency and collaboration
- ✅ Delivered multiple automation-driven solutions reducing manual effort and improving process turnaround time
- ✅ Contributed to enhancing SharePoint-based enterprise applications for improved user experience
